

I believe K-love is a service to the whole nation for a number of reasons. One being that prayer requests are made and prayer warriors across the nation we do not know are praying for us. Two is the music. They do a great job of filtering through music that is not Christ centered. Three I believe it is a way that a lot of working Christians get their morning devotional. There are other reasons but these are just a few. Thank You for continuing to let K-love air.
